Detailed technical data

Features

Description	An Introduction to the FX3-MOCO Drive Monitor. A hands on approach to programming the drive monitor to perform safe drive function such as SLS, SDI, SSM etc.
At a glance	Practical training with the Flexi Soft safety controller from SICK focusing on the Drive Monitor FX3-MOCO
Your benefits	Enables participants to operate the Drive Monitor FX3-MOCO safely
Objectives	Attendees will learn about the FX3-MOCO Drive Monitor concept and be able to design, build and perform diagnostics on a drive monitoring system
Attendance type	Face-to-face
Training format	Classroom training
Class size	Maximum 6 trainees
Duration	1 day
Level	Advanced
Target audience	Planners Designers System integrators Application engineers Project engineers Developers Maintenance
Available languages	German
Certificate	SICK
Prerequisites	Training on Flexi Soft – modular safety controller

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
