Detailed technical data

Features

Description	Learn how the Flexi Soft and Flexi Compact safety controllers work and how the configuration tool can help you solve applications quickly and easily. You will get an overview of how to deliver safe controller solutions: from main module through extension modules and beyond to field-bus coupling on all established networks.
At a glance	Setup and principles of operation of Flexi Soft/Flexi Compact SICK safety controller portfolio Device versions and accessories Flexi Soft Designer Fault diagnosis
Your benefits	Quick and easy configuration Integrate the Flexi Soft and Flexi Compact modular safety controller reliably into your own network
Objectives	Understanding how Flexi Soft/Flexi Compact work Working with Flexi Soft Designer (www.sens-control.com) Recognizing and solving typical applications Fault diagnosis
Attendance type	Face-to-face
Training format	Classroom training
Class size	Maximum 8 trainees
Duration	2 days
Level	Basics
Target audience	Planners Designers System integrators Application engineers Project engineers Developers Maintenance
Available languages	German
Certificate	SICK
Prerequisites	Basic knowledge on digital technology

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
