Detailed technical data

Features

Description	You can easily use all of the functions of the C4000 with the UE402 interface. Diagnostics and configuration are straightforward, very little space is required inside the control cabinet, wiring overhead is minimal, and warehousing costs are low: these are just some of the benefits that can be reaped by using the right solution.
At a glance	Function and application of the C4000 with UE402 Operating modes in conjunction with UE402 Device versions and accessories Additional fault diagnosis and troubleshooting on the C4000 and the UE402 Applications
Your benefits	Very little space is required inside the control cabinet and maintenance requirements are low Make use of extensive functional enhancements
Objectives	Integration of UE402 into a machine controller Advanced configuration of the C4000 with UE402 Enhanced fault diagnosis and troubleshooting on the C4000 and the UE402
Attendance type	Face-to-face
Training format	Classroom training
Class size	Maximum 8 trainees
Duration	1 day
Level	Advanced
Target audience	Maintenance Designers Application engineers Project engineers Planners Developers
Available languages	German
Certificate	SICK

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
