## Detailed technical data

#### **Features**

| Functional principle            | Photoelectric retro-reflective sensor                 |
|---------------------------------|---|
| Functional principle detail     | With minimum distance to reflector (dual lens system) |
| Dimensions (W x H x D)          | 11 mm x 31 mm x 20 mm                                 |
| Housing design (light emission) | Rectangular   |
| Sensing range max.              | 0.01 m 7.2 m <sup>1)</sup>                            |
| Sensing range                   | 0.01 m 5.5 m <sup>1)</sup>                            |
| Type of light                   | Visible red light                                     |
| Light source                    | LED <sup>2)</sup>                                     |
| Light spot size (distance)      | Ø 280 mm (4 m)  |
| Wave length                     | 632 nm  |
| Adjustment                      | Potentiometer (Sensitivity)                           |
| Special features                | Without reverse polarity protection diode             |

<sup>1)</sup> Reflector PL80A.

 $<sup>^{2)}</sup>$  Average service life: 100,000 h at TU = +25 °C.

## Mechanics/electronics

| Supply voltage $\mathbf{U}_{\mathrm{B}}$ | 10 V DC 30 V DC <sup>1)</sup>           |  |  |
|--|---|--|--|
| Ripple                                   | ± 10 % <sup>2)</sup>                    |  |  |
| Current consumption                      | 30 mA <sup>3)</sup>                     |  |  |
| Switching output                         | NPN                                     |  |  |
| Switching mode                           | Light/dark switching                    |  |  |
| Switching mode selector                  | Selectable via light/dark rotary switch |  |  |
| Signal voltage NPN HIGH/LOW              | Approx. $V_S$ / < 1.8 V                 |  |  |
| Output current I <sub>max.</sub>         | ≤ 100 mA                                |  |  |
| Response time                            | $\leq$ 0.5 ms $^{4)}$                   |  |  |
| Switching frequency                      | 1,000 Hz <sup>5)</sup>                  |  |  |
| Connection type                          | Cable, 3-wire, 2 m <sup>6)</sup>        |  |  |
| Cable material                           | Plastic, PVC                            |  |  |
| Conductor cross section                  | 0.18 mm <sup>2</sup>                    |  |  |
| Circuit protection                       | $D^{7)}$                                |  |  |
| Protection class                         | III                                     |  |  |
| Polarisation filter                      | <b>√</b>                                |  |  |
| Special device                           | ✓                                       |  |  |
| Housing material                         | Plastic, ABS/PC/POM                     |  |  |
| Optics material                          | Plastic, PMMA                           |  |  |
| Enclosure rating                         | IP67                                    |  |  |
| Ambient operating temperature            | -25 °C +55 °C                           |  |  |
| Ambient temperature, storage             | -40 °C +70 °C                           |  |  |

<sup>1)</sup> Limit values.

## Certificates

| EU declaration of conformity                      | ✓        |
|---|----------|
| UK declaration of conformity                      | ✓        |
| ACMA declaration of conformity                    | ✓        |

## SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is "Sensor Intelligence."
