SIEMENS

Data sheet 6GT2780-1GA00

product type designation	**Locating Manager Health Monitoring Extension SUS**
	SIMATIC RTLS Locating Manager Health Monitoring Extension SUS installations in one plant, software and upgrade license key through OSD download - - email address required for delivery
product brand name	RTLS
Technical Product Detail Page	https://i.siemens.com/1P6GT2780-1GA00
software version	V3.0
product license	
● Software Update Service	Yes
product license	F
product functions	
product version	SUS contract in conjunction with a health monitoring license that entitles you to receive continuous updates.

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
