

CHARACTERISTICS

- Do not exceed the recommended tightening torques so as not to damage the nut, the caliper and deform the spindle seat;
- Maximum torque values are to be adopted for maximum clamp diameters.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |            |                                                                                                                                                     |          |  |
